Name: …………………………..   Roll No:………

General Instructions

1. All the questions are compulsory

2. Answer all questions in a separate paper

Section A – Reading Comprehension

Q.I   Read the following passage and answer the questions given below:-

Raju works in an ice-cream depot. On one hot summer afternoon, while returning to the depot, he was stopped in a traffic jam of cars which were going for the beach. Raju decided to get an ice-cream from the back of his truck and four sweltering kids in the car behind watched him eat it. Feeling sorry for them, he gave them each an ice-cream. In a matter of minutes he was surrounded by children and by the time the traffic began to move, he had distributed four cartons. Rather than explaining to his boss, he decided to pay for them himself.

On his arrival at the depot, however, he was called to the manager's office and asked why he had been giving away company stock. Even after explaining the situation and his decision to pay, he still expected to be sacked. Instead, his boss smiled broadly and appreciated him. He said, 'It is the best way of advertising the product'. Parents had been phoning to thank the company for their product.

Fill in the blanks: ½x2=1

1   Raju was stopped in a _____.

2   The kids gathered before Raju as they wanted_____

Say true or false: ½x2=1
