Reading Comprehension

I. Read the following passage and answer the questions give below.

Have you ever seen a fish which can hop and skip? The mudskipper is one such interesting variety. Its natural habitat is the sea but it is equally at home on land. One may come across a mudskipper in the mangrove swamps of Africa, South and South –East Asia, upto Philippines and Japan. They are found on the sea shore, lying in the mud with a slightly raised head ever alert to slightest disturbance.

Mudskippers have the ability to breathe through their skin and the lining of their mouth and throat. This is only possible when the mudskippers are wet, limiting them to humid habitats ad requiring they keep themselves moist. This mode of breathing is known as cutaneous breathing.

I. Answer the following.

1. What is interesting about mudskipper?
