<b>Section A</b>	<b>:</b>	<b>Reading</b>	<b>20 marks</b>
<b>Section B</b>	<b>:</b>	<b>Writing&amp; Grammar</b>	<b>30 marks</b>
<b>Section C</b>	<b>:</b>	<b>Literature&amp; Long Reading Text</b>	<b>30 marks</b>

**SECTION A (READING :20 marks)**

1 **Read the passage given below and answer the questions/complete the statements that follow : (1x8) 8**

**On Sprouts**

(1) Sprouts relatively contain the largest amount of nutrients per unit of any food known to man. Sprouts produce a fountain of power for chemical changes. Enzymes are produced, starch gets converted into glucose. Protein is transformed into amino acids and vitamin value increases. In fact a new explosion of life force takes place. According to Dr. Bailey of the University of Minnesota, U.S.A the vitamin C value of wheat increases 600 percent in the early sprouting period. Dr. C.R. Show of the University of Texas Cancer Centre found that cancer was inhibited upto 90% when healthy bacteria were exposed to a cancer causing substance in the presence of a juice made from wheat sprouts.

(2) Enzymes which initiate and control almost every chemical reaction in our bodies, are greatly activated in the sprouting process. Enzymes spark the entire digestive system to synthesize the nutrients in our food into blood. They are the key to longevity.

(3) Sprouts are enjoyed more when they are fresh. Mix sprouts with other foods and dressing, according to your taste and enjoy eating them. But eat them you must, every day! You will soon realise that making sprouts a part of your diet has a dramatic effect on your health. With this live food, all the cells of your body will become active and agile.

(4) The act of sprouting creates Vitamin C, which is missing in dried pulses; increases the all-important B group of Vitamins, Vitamin E and Vitamin A; and the quality and digestibility of the proteins are greatly increased. With the increased energy output in the sprouting process, bean sprouts turn into one of the super foods.

(5) The nourishment which develops as the sprouts grow is very stable and can be frozen or dried for future. Sprouted potato or tomato seeds are likely to be poisonous. Alfalfa and moongbean Sprouts are excellent soft food. They are almost predigested and can be easily assimilated even by the children and the elderly. They contain every known vitamin in perfect balance, necessary for the human body.

(1) Why are sprouts beneficial for our health?

(2) The \_\_\_\_\_ increases 600 percent in the early sprouting process.

(3) \_\_\_\_\_ seeds are likely to be poisonous when sprouted.

(4) Why are enzymes considered to be the key to longevity?

- (5) Name the vitamins which are produced due to the act of sprouting?
- (6) Find a word from the passage which means, to combine a large range of something is \_\_\_\_\_.(Para 5) as

(7) How can you make your body cells active and agile?

(8) Sprouts are excellent soft food. Explain briefly.

2

**Read the passage given below carefully and answer the questions that follow.**

12

(1) While it is a well-known fact that yoga, certain kinds of music and some calming foods are known to relieve stress, the latest trend is the search for certain scents with calming properties that can help a person to unwind and soothe the nerves.

(2) One such scent that is now being touted as having calming properties is lavender. It has long been a popular ingredient used in most spas as the scent is believed to help one sleep better. To test its properties one can opt for a lotion with lavender as its ingredient. An even better option is to spray the scent on the pillow for a sound sleep.

(3) Everyone has heard of mint chutney that is served with samosas and pakoras, but few would think of applying a mint based paste on one's body. Yet this is just what is recommended for those who would like a smooth and purifying effect on the mind, brought about by this application.

(4) Citrus fruits are not only good for health but also serve as good mood lifters. Sniffing lemon zest is believed to soothe over stress and the smell of grapefruit is known to curb depression. Other advantages include memory enhancement from smelling oranges Even the zest of an orange can make one feel energetic. Therapists also recommend that one can light an orange scented candle by ones side, in the bath, and imbibe the same benefits.'

(5) For that nagging headache that comes on whenever you step out into the scorching sun, there is yet a cure available from the array of calming scents. According to some researchers sniffing at a green apple cannot only cure a headache, but help alleviate it altogether.

(6) The latest finding about the calming properties of scents has entered the realm of roses. Since time immemorial the flower has been associated with happiness, love and joy. With this new finding, it will now embody an additional quality- that of relieving stress. The ideal way to prove it would be to use a rose-scented soap or massage with rose scented body oil before going under the shower.

**(1) Answer the following questions briefly :(2x4)**

- (a) What does the latest research into scents reveal?
- (b) What are the latest findings about the properties of lavender?
